

The Calibration Standard for Texas Schools

RefynED helps principals capture stronger evidence, strengthen evaluator calibration, and build greater confidence in evaluation decisions.

Built for Texas schools and districts.

Funding-aligned for statewide initiatives.

Built for Texas Priorities

T-TESS Alignment

Capture stronger observations aligned to trusted instructional frameworks.

LIFT Initiative Alignment

Support state-funded walkthrough systems with stronger observation quality & district visibility.

TIA Defensibility

Strengthen the evidence behind compensation, funding, and high-stakes designations.

Clearer observations. Stronger decisions.

RefynED helps leaders clearly see what supports ratings, what may be missing, and where calibration risk exists before final decisions are submitted.

What supports the score

Where evidence may be incomplete

Recommended rating confidence

Teacher Trust

Teachers see how evidence is used and ratings are more consistent.

Evaluator Clarity

Clearer evidence and calibration lead to stronger evaluation quality.

District Defensibility

Stronger evidence supports funding, compensation, and high-stakes decisions.

Clearer observations. Stronger decisions.

Start with Stronger Calibration

Maximize available funding while building more consistent evaluations and greater confidence in every decision.

Capture. Align. Calibrate.

RefynED helps leaders:

- ✓ Capture fuller classroom evidence
- ✓ Reduce documentation burden
- ✓ Align observations to trusted frameworks
- ✓ Improve calibration before ratings are finalized
